

Leadership in Practice

Leadership in Practice (LiP) is LDC's highly-regarded nine-month development programme for experienced leaders who manage others and are ready to broaden their leadership impact and strategic influence across the system.

LiP is designed to support participants, who have been identified by their managers, develop greater cognitive and behavioural self-awareness and better understanding of how this impacts leadership effectiveness. The programme is ideal for progressing leadership development planning and learning how to put knowledge into action.

The four-day residential

LiP begins with a four-day residential (live-in) that lets you focus on your leadership and yourself away from the workplace. You're able to reflect, think and plan the impact you want to have as a public sector leader. You will also build trusted networks with colleagues from other agencies that will support your ongoing learning and development.

Programme features:

- Chief executives and senior leaders as guest speakers
- Opportunities for experiential learning reflection and practise in the workplace
- Creating and using networking relationships across agencies
- Highly experienced and respected facilitators who understand the context and direction of the Public Service Act 2020 and the priorities for all chief executives
- Opportunities for enhancing development focus areas in the workplace.

Participants will:

- Take part in a four-day residential (live-in)
- Participate in Action Learning Groups for the life of the programme
- Engage in monthly coaching with facilitator, peer and manager support
- Grow networks to enhance cross-sector collaboration.
